React
Node JS
Nest JS
Postgres SQL
Dbms
Mongodb
Express
Object Oriented Programming
Data Structures

Education

BTECH (mechanical)

2017-07 - 2021-05

Inderprastha Engineering College

- 7.2 CGPA

12th: Intermediate Board

2015-04 - 2017-05

Ralli International school
- 66 %

10: Secondary School Certificate Examination

2013-06 – 2015-03

Ralli International school
 70 %

CHAT APP

- Developed a chat App using Node and React
- Used IO socket for this
- There is joining room where not more than two person are allowed in room
- Each person have unique id

RESPONSIBILITIES

- Full stack development along with problem solving training

- Tech Stack learned - PERN , MERN

- Polishing my skills & getting hands on experience on Real Timeprojects

- Middlewares (Authentication and Authorization using open-id connect)

- Front end development along with problem solving training

- Evaluated the structure and design of web pages

- Used best practice in HTML, CSS, JavaScript, React and Redux
- to develop a dynamic site

- Debugged codes to make sure they are working fine

- Learned front-end object-oriented programing to develop the
- responsive web sites

- Efficiency with popular software such as **VS code** and **Sublime**
- text editor

- Performed daily operations and designed interactive web sites

- This handles dynamic building of web pages based on page

- definition, designs, validations, events via JSON entries by using
- design patterns and design principles

- Technologies learned - JavaScript, React, Node, DSA

- Designed and implemented dynamic web applications

- Polishing my skills & getting hands on experience on Real
- Time projects.
